

Make A Beaded Pipe Cleaner Snake

Beaded Pipe Cleaner Snake Directions

Materials: Pipe cleaner, pony beads, glue, and wiggle eyes.

Directions:

1. Straighten pipe cleaner if needed.

2. To create the head of your snake:

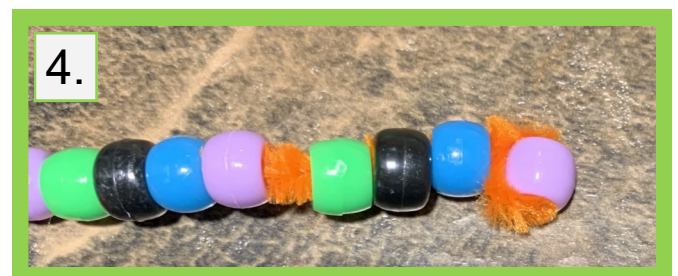

Bend about half an inch of the top of you pipe cleaner down and bend down again. Then shape the head how you like.

3. From the bottom of the pipe cleaner, begin putting on the beads. You can put them in any pattern!

4. With your last bead, fold the pipe cleaner around it. This will prevent your snakes beads from falling off. Cut off any extra.

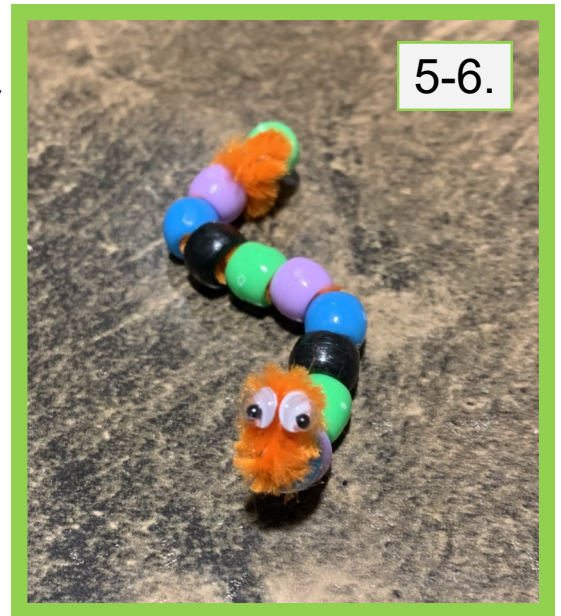

OVER 

5. Once all of your beads are on, bend your snake's body (optional).

6. Now, put two small drops of glue onto the face of your snake and place your wiggle eyes.

7. You're all done! Make sure your snake doesn't slither away.
