

# Make A Glowing Pop Bottle Firefly

# Glowing Pop Bottle Firefly Directions

**Materials:** Orange paper, 2 black paper wings, 3 brown pipe cleaners, 1 yellow pipe cleaner, 2 wiggle eyes, pop bottle w/ lid, glow stick, scissors, glue

## Directions:

1. Take one of the brown pipe cleaners and lay it underneath water bottle.
2. Wrap pipe cleaner around bottle and twist to secure.

3. Bend the two ends to make legs.

4. Repeat steps 1-3 for the other two legs.

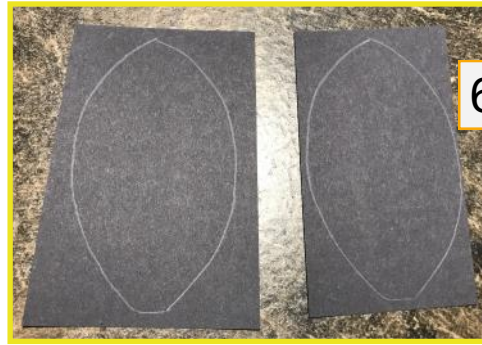

5. Wrap your bottle in orange paper. Play around with how tight or loose you wrap the paper to find the right fit.

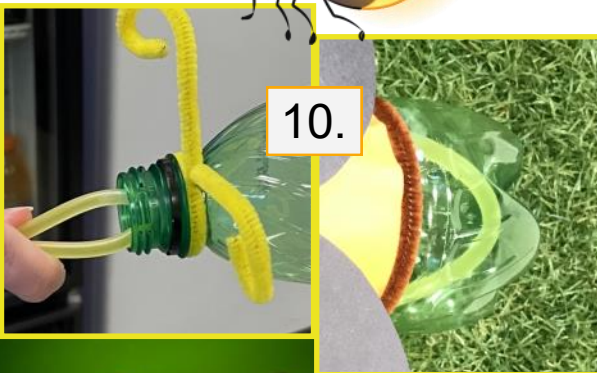

6. Cut the wings out and glue them to orange paper.

7. Use the yellow pipe cleaner to create antenna. Wrap the pipe cleaner around the top of bottle. Twist to secure. Shape the ends.

8. Glue the eyes to the lid of the bottle.

9. Your firefly is complete. **Wait for it to get dark to break the glow stick, which is inside the bottle.** Watch your glowing firefly glide through the air.

10. For best glow look, after activating glow stick, fold in half and push into bottom of bottle.
