

Make A Handprint Cactus

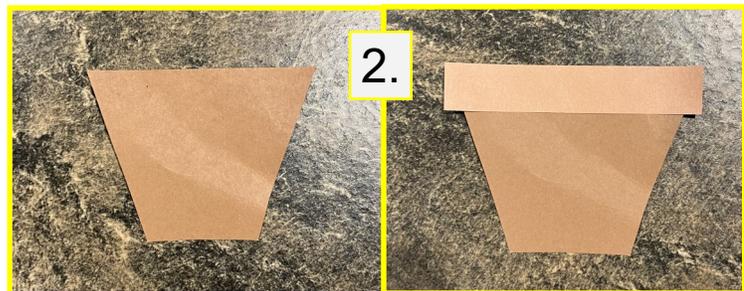

Handprint Cactus Directions

Materials: brown construction paper, green construction paper, small colored square of paper, pom pom, wiggle eyes, scissors, glue, black & white colored pencil

Directions:

1. Trace your hand onto the green paper. Cut it out.
2. Cut a pot shape out of the brown square of paper. Glue the lighter brown strip on top and trim to size.
3. Glue the green paper to the backside of the pot.
4. Cut a flower out of the colored square of paper and glue the white pom pom in the center. Glue the flower onto the cactus.
5. Glue your wiggle eyes on, draw a face, and add any other details with the white colored pencil like spines.
6. You're done!
