

Make A Pipe Cleaner Christmas Ornament

Pipe Cleaner Christmas Ornament

Directions

Snowflake Materials: 2 colored pipe cleaners

Snowflake Directions:

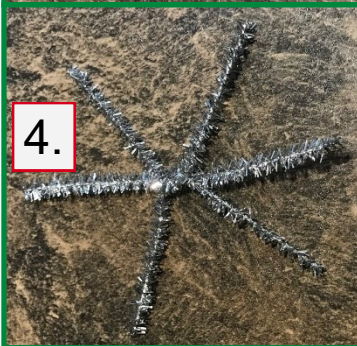

1. Cut one pipe cleaner into 3 equal pieces, about 4 inches each.

2. Line up the 3 pieces so the ends are even.

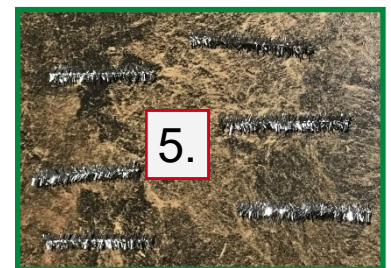

3. Twist the three pipe cleaners together at the center a few times so they stay together.

4. Spread the pipe cleaners into a star shape.

5. Cut the second pipe cleaner into 6 equal pieces, about 2 inches each.

6. Twist one of the 2 inch pieces around one of the ends in the star shape making sure both sides are equal.

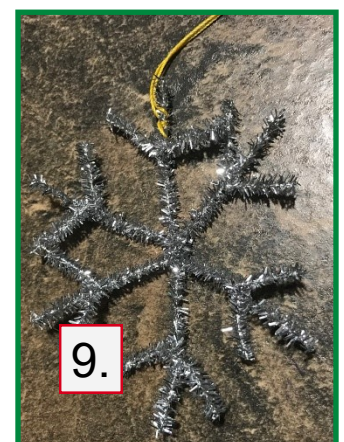

7. Bend the ends outwards to make a V shape.

8. Repeat steps 6-7 for each end of your snowflake.

9. Add some string to your snowflake. You may need to wrap the string

around part of the snowflake.

Star Materials: 1 colored pipe cleaner

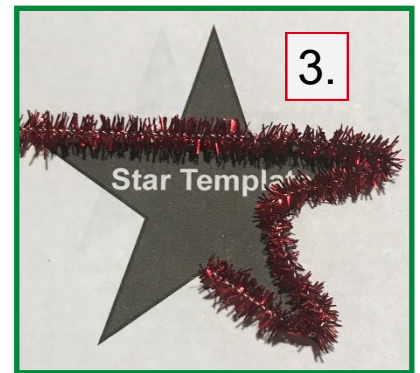

Star Directions:

1. Place the end of the pipe cleaner at the bottom of the star template.

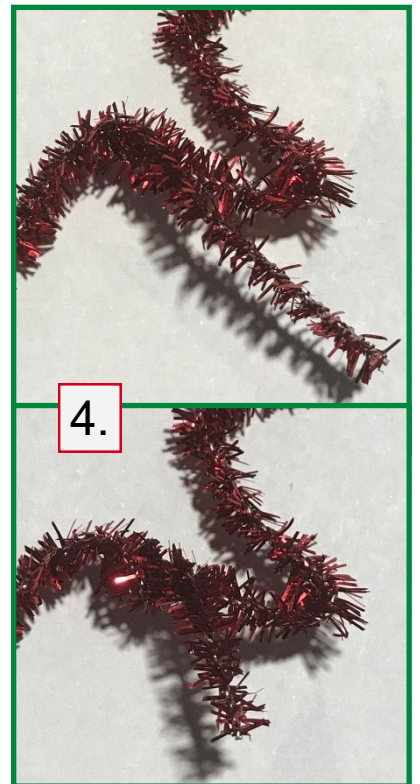

2. Use a finger to hold the pipe cleaner in place.

3. Then bend around the points of the star template. It may take a few tries to get the points right.

4. Once you reach the point where you started twist the pipe cleaner ends together.

5. Bend the pipe cleaner as needed to adjust the star shape. If you have any extra pipe cleaner, either twist it onto the other end or trim it off.

6. Tie on the string so you can show off your new decoration
