

# Make a Popsicle Stick Alligator

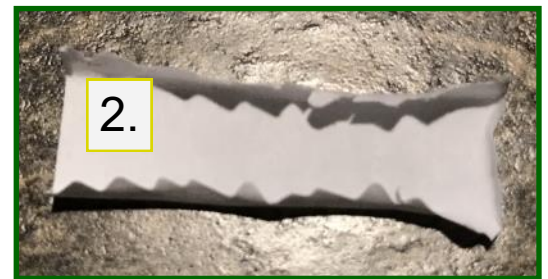

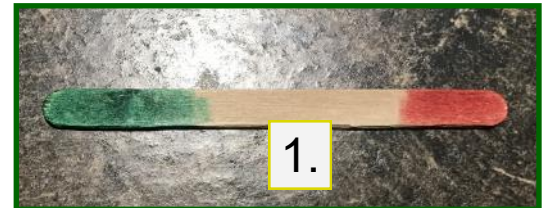

# Popsicle Stick Alligator Directions

**Materials:** Popsicle stick, 1 long and 2 short green pipe cleaners, 2 googly eyes, 2 green paper rectangles, 2 white paper rectangles, green and red marker, tacky glue

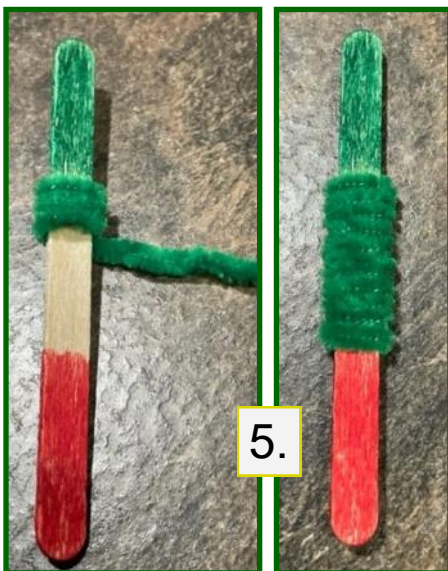

## Directions:

1. Color a third of the popsicle stick end red and the other end green. You only have to color one side.
2. Fold the edges of one of the pieces of white paper up.
3. Glue the white paper to the green rectangle.

4. Repeat step 4 for the other two pieces.

5. Wrap the long pipe cleaner around the center of the stick.

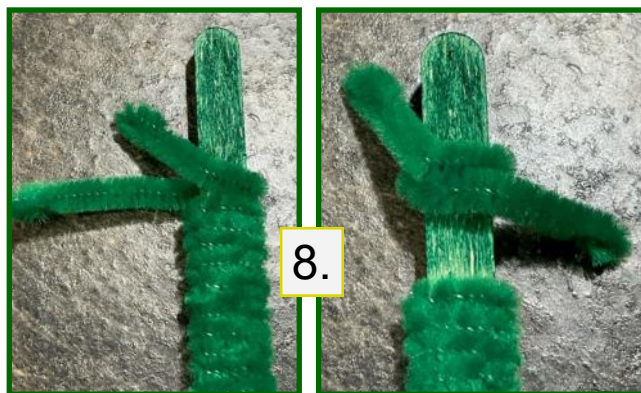

6. Take one of the short pipe cleaners and fold a small amount of each end over.

7. Place the pipe cleaner under the popsicle stick.

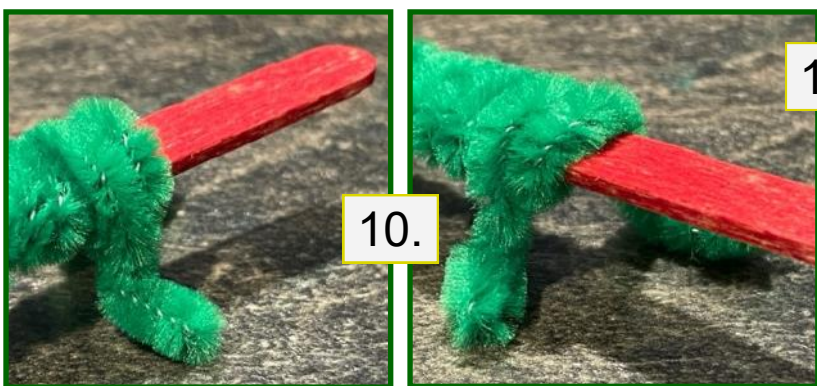

8. Begin wrapping by folding the right side of the pipe cleaner over the popsicle stick. Then fold over the left side. You may want to add a small amount of glue to help the pipe cleaner stay in place.

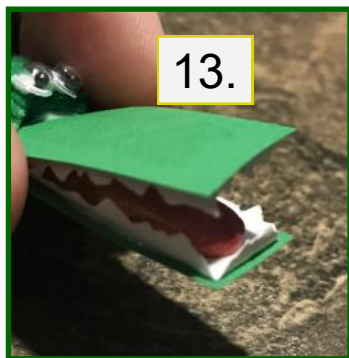

9. Repeat steps 5 through 8 for the other short pipe cleaner.

10. You can fold the legs outward to make the alligators feet.

11. Glue the teeth to the bottom of the popsicle stick on the side that is colored red.

12. Glue the eyes to the pipe cleaners.

13. Glue the other set of teeth to the top part of the pipe cleaner. You may need to hold it up while it dries.
