

# Make A Chalk Art Campfire

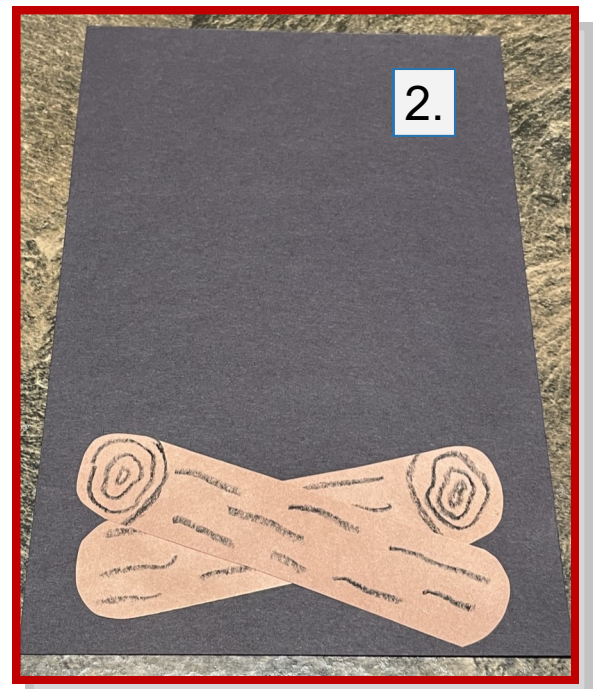

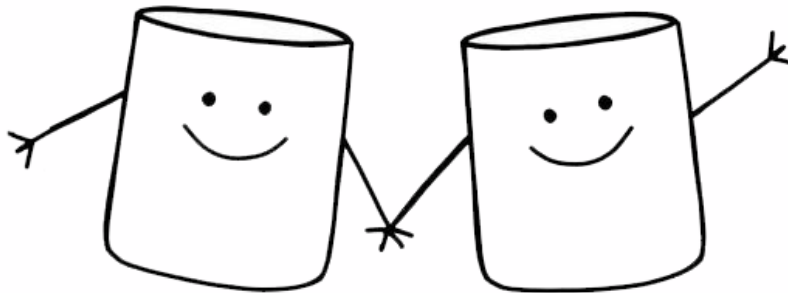

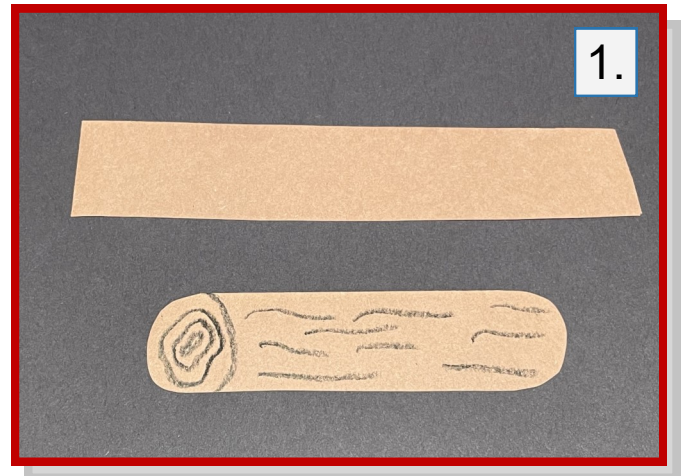

# Chalk Art Campfire Directions

**Materials:** Black and brown construction paper, brown chenille stem, cotton ball, black crayon, red/orange/yellow chalk, and glue

## Directions:

1. Use the brown paper to make two logs for the fire. You can leave them as rectangles or round the ends like a cut log. Use the black crayon to make lines on the wood/logs.
2. Glue your logs onto the bottom of your black construction paper.

3. Use the chalk to make flames coming from the logs.
4. Glue the brown pipe cleaner onto one side of your fire for a marshmallow stick.
5. Glue the cotton ball to the top of the “stick” as your marshmallow.
6. Hang your marshmallow campfire in a place to enjoy on rainy days!
