

Make a Colorful Octopus

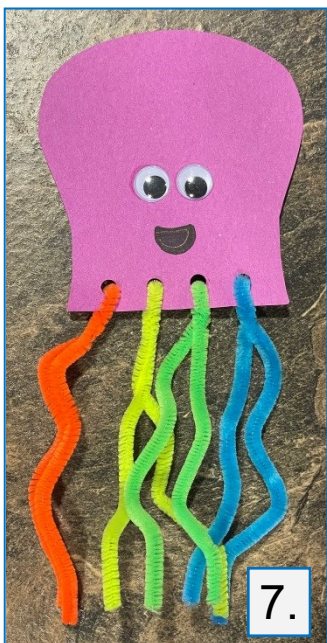

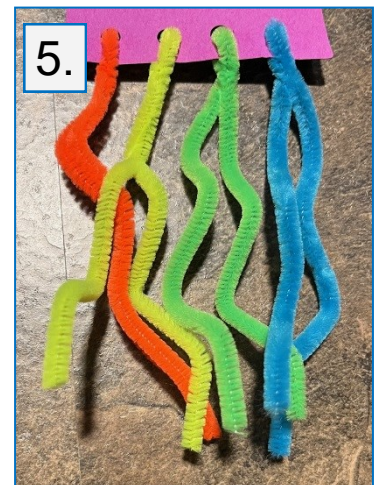

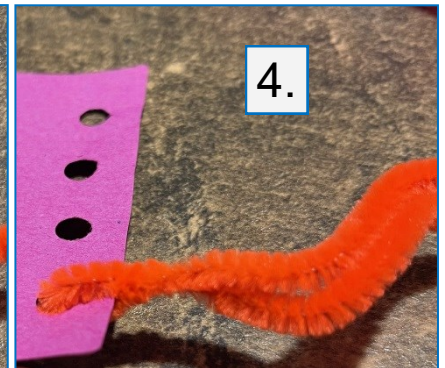

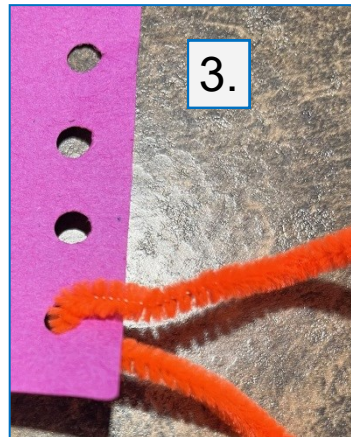

Colorful Octopus Directions

Materials: construction paper octopus template, 4 pipe cleaners, 2 wiggle eyes, scissors, hole punch, Elmers glue, marker

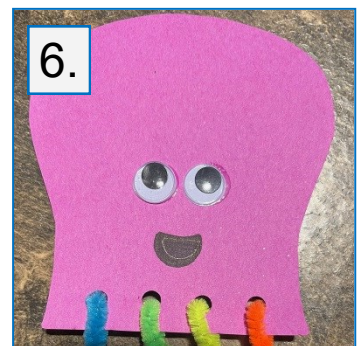

Directions:

1. Cut out the octopus template.
2. Punch four holes on the straight edge of the paper. There are four black circles to guide you, punch out those circles.
3. Feed a pipe cleaner halfway through the first hole. Fold in half. Repeat with the other three pipe cleaners.
4. Twist the folded end of the pipe cleaner two times to secure it to the construction paper. Repeat for all.

5. Once all four pipe cleaners are attached, bend them to give them a wavy look.

6. Lastly, bring the octopus to life. Glue the wiggle eyes onto your octopus and draw a mouth.

7. You're all done! Hang your octopus up at home!
