

Make A Cupcake Liner Frog

Cupcake Liner Frog Directions

Materials: Cupcake liners, popsicle stick, white paper, scissors, glue stick, & markers

Directions:

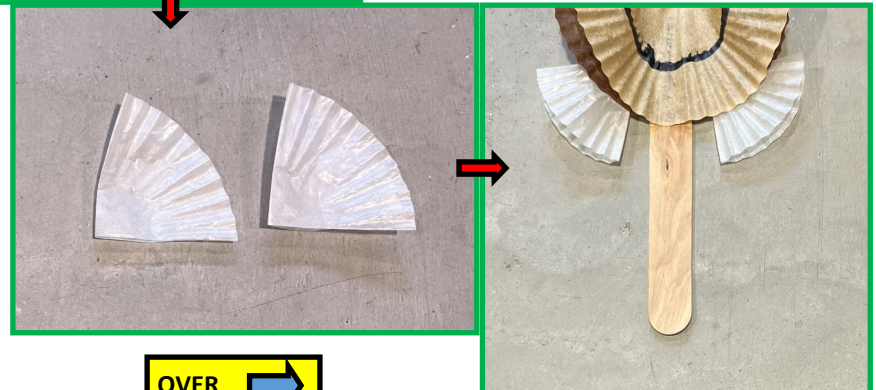

1. Begin by flattening each cupcake liner.
2. Glue the dark brown cupcake liner onto the popsicle stick, about two inches.

3. Draw nostrils and a mouth onto the light brown cupcake liner. Fold the light brown cupcake liner in half. Fold again next to the first crease, making a small flat spot in the center. Glue this flat spot vertically onto the center of the dark brown cupcake liner.

4. Cut the white cupcake liner in half. Fold each half in half, making two triangles. Glue these to the bottom of the frog. These are the frog's feet.

PLEASE LEAVE DIRECTIONS ON TABLE ~ THANKS, WH NATURE CENTER

5. Draw the frogs eyes onto the white paper. Cut these out and glue them to the back of the frogs body.

6. You're done! Hop around Woodhaven with your new froggy friend! Be sure to check out the Nature Center's new live frogs exhibit before you go!
