

# Make a Cupcake Liner Oyster

# Cupcake Liner Oyster Directions

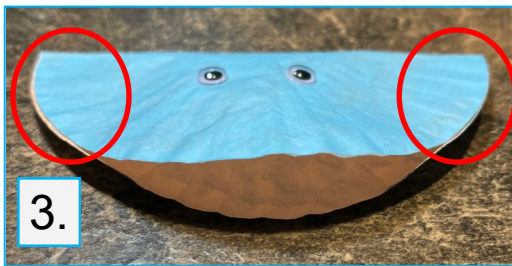

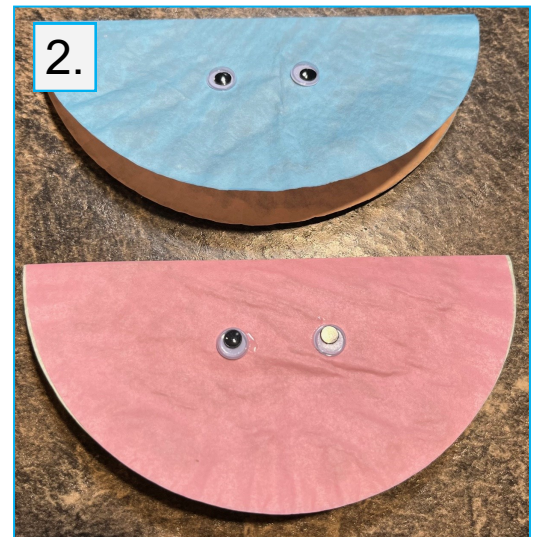

**Materials: 4 cupcake liners, 4 wiggle eyes, 2 flatback pearls, stick glue, Elmers glue**

## Directions:

1. Flatten all cupcake liners. Pair pink or peach with blue and green. Glue them using the glue stick. (Using liquid glue will make your oyster floppy.) When gluing, glue the light/whiteish sides of cupcake liners together, leaving the vibrant colors on the outside.

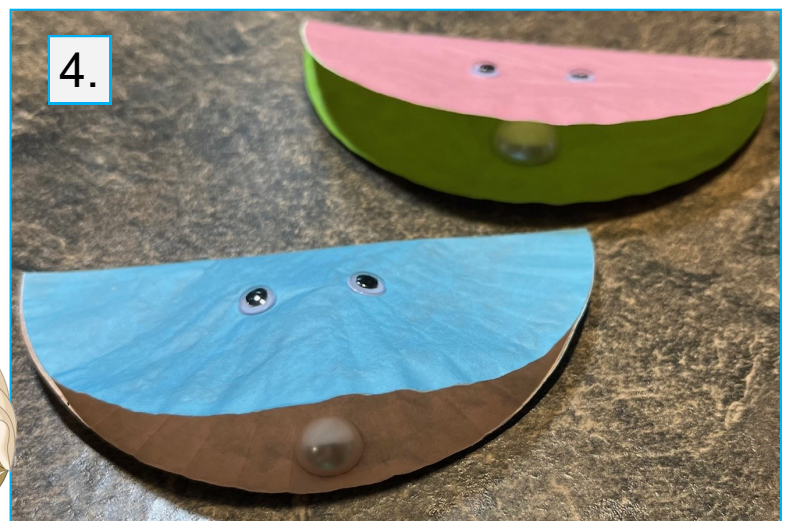

2. Fold the cupcake liner pairs in half, leaving the green or blue on the outside. Glue two eyes onto the top of each oyster using the liquid glue.

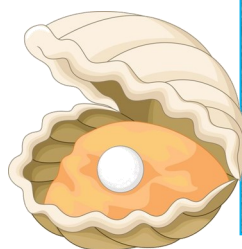

3. Using the stick glue, glue the corners of one oyster.

4. Using the liquid glue, glue the smaller pearl onto the oyster with glued corners. Glue the larger pearl onto the open oysters mouth.

5. You're colorful oysters are done!

**PLEASE LEAVE DIRECTIONS ON TABLE ~ THANKS, WH NATURE CENTER**
