

Make A Hatching Chick

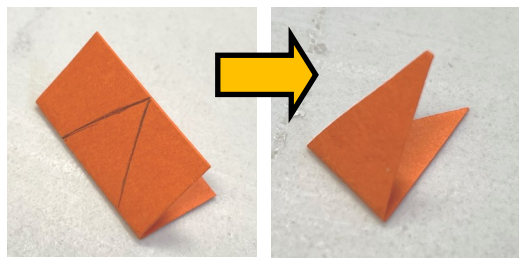

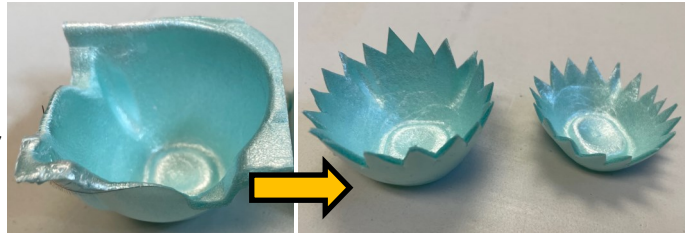

Hatching Chick Directions

Materials: 2" yellow pom pom, egg carton cups, 2 feathers, 2-7mm wiggle eyes, orange construction paper, scissors, glue

Directions:

1. Start by cutting the egg carton cups to look like a broken egg. One should be cut down smaller to fit the chicks head better.

2. Make a beak by folding the orange paper square in half and drawing a triangle like the picture. Cut out the beak.

3. Glue the wiggle eyes and beak onto the pom pom.

4. Glue the pom pom chick into the large egg carton cup piece.

5. Add the wings. Place glue on the feather tips and place between pom pom and carton cup on either side of the chick.

6. Glue the top smaller egg carton cup onto the top of the chicks head.

7. You're done! Take your chick home to celebrate springtime!
