

Make Patriotic Paper Flowers

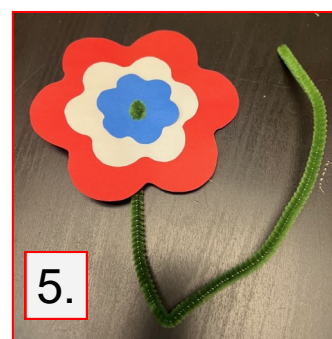

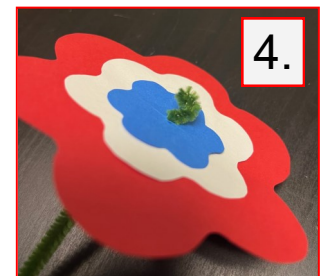

Patriotic Paper Flowers Directions

Materials: 3 large red, 3 medium white & 3 small blue papers, 3 green pipe cleaners, pencil, 3 sizes of flower stencils, scissors

Directions:

1. Use the flower stencils to draw the flower shape onto the pre-cut pieces of construction paper. Make all sizes: small = blue, medium = white, large = red.
2. Cut along the traced lines.
3. Using 3 of your flower shapes, 1 small, 1 medium and 1 large, take a green pipe cleaner and stick it through the center of the largest flower, about 1 inch. Then do the same with the medium and small flower.
4. Fold the short end of the pipe cleaner over to make a center point to ensure the flower stays together.
5. Fold the long end of the pipe cleaner down the back side to make a stem.
6. Repeat steps 3-5 for your other two flowers.
7. Now you have a pretty patriotic flower bouquet!

PLEASE LEAVE DIRECTIONS ON TABLE ~ THANKS, WH NATURE CENTER
