

Make a Popsicle Stick Snake

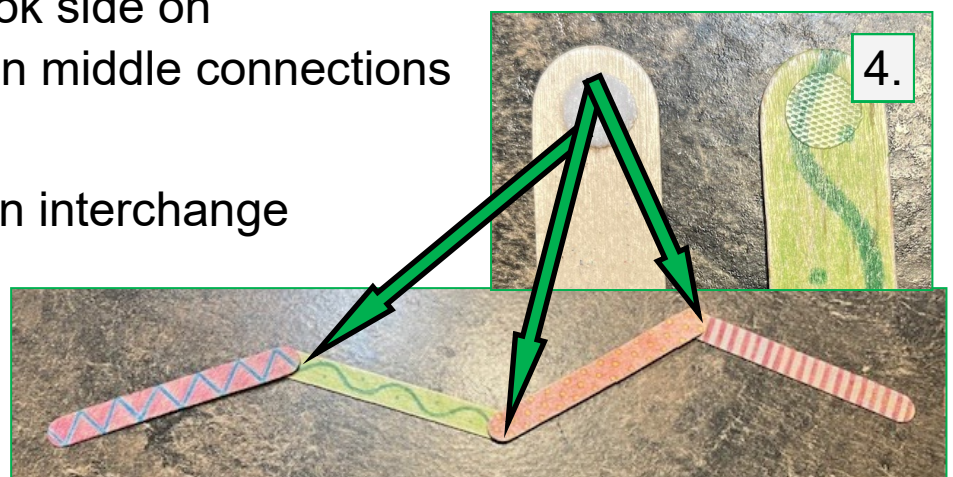

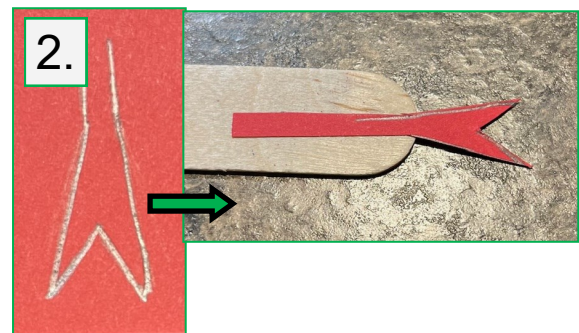

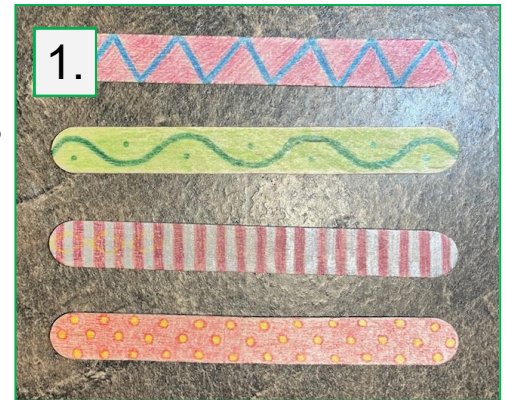

Popsicle Stick Snake Directions

Materials: 4 jumbo popsicle sticks, 3 velcro pairs, 2 wiggle eyes, red construction paper, Elmers glue, scissors, colored pencils

Directions:

1. Begin by coloring all four popsicle sticks however you like.
2. Choose which popsicle stick you would like the head to be. Draw a snake tongue onto the red slip of paper. Cut and glue to the backside of that stick.
3. Glue wiggle eyes onto the snakes head.
4. Next, connect the popsicle sticks with the velcro. Peel the backing and place a set of velcro stickers on the end of the popsicle stick. Place furry loop side on bottom/ uncolored side and hook side on colored side. Repeat on middle connections only.
5. You're done! You can interchange middle sticks if you'd like. Slither away!

PLEASE LEAVE DIRECTIONS ON TABLE ~ THANKS, WH NATURE CENTER
