

Make A Woodland Animal Collage

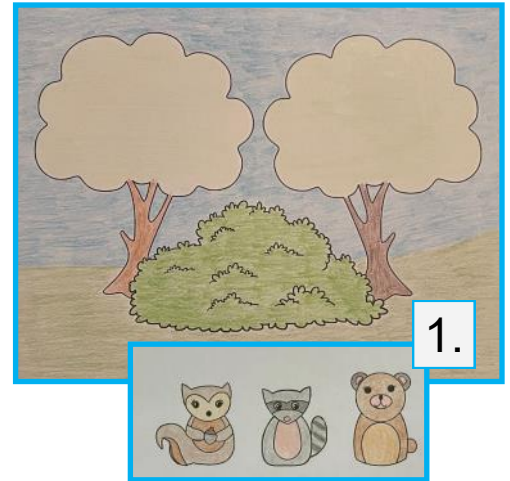

Woodland Animal Collage Directions

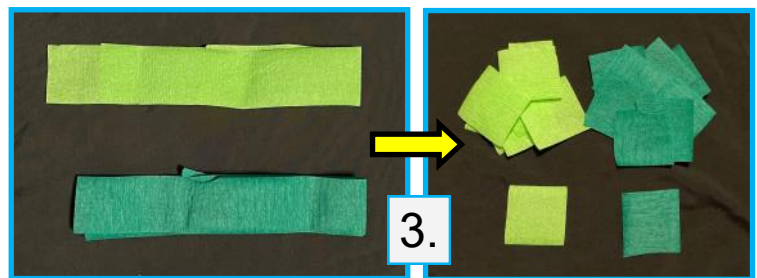

Materials: woodland background & animals, green streamers, colored pencils, glue, & scissors

Directions:

1. Start by coloring the woodland background page and animals.
2. Cut out the animals. If you don't want to cut out the animal close, you can cut in a circle and then color around the animal to blend into your background.

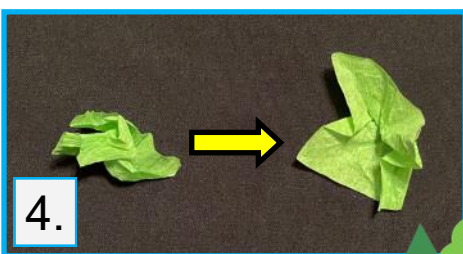

3. Cut the green streamers (leaves) into 1.75 inch pieces. A ruler is on the side of this page.

1.75 inches long

4. Take each streamer piece and crumple it up then slightly undo.

This gives the "leaf" more shape.

5. Glue the streamer leaves onto the trees.
6. Glue the animals to your background.
7. Hang your woodland animal collage where everyone can enjoy it!
