

CULVERT

Second Class Permit Required

Woodhaven Rules and Regulations, Article VII, Section 7E.

1. Culverts are required under driveways that cross drainage ditches and shall maintain proper drainage in ditches. Required culvert diameters vary with location; specific requirements may be obtained from the Code Enforcement Officer.
2. Culverts may be made of galvanized metal or double-walled plastic tube, in accordance with the manufacturer's intended purpose and installation instructions. Manufacturer's specifications may be required for permit.
3. If no drainage ditch exists between the roadway and an owner's lot, no culvert is required.

Declaration of Covenants and Restrictions for Woodhaven Association, Article IV. Campsite Restrictions, Item M. Ditches and Swales.

Each Owner shall keep drainage ditches and swales located on his Campsite free and unobstructed and in good repair and shall provide for the installation of such culverts upon his Campsite as may be reasonably required for proper drainage and erosion prevention.

Setbacks: 1' from side property lines.
