

Make A Green Paper Iguana

Green Paper Iguana

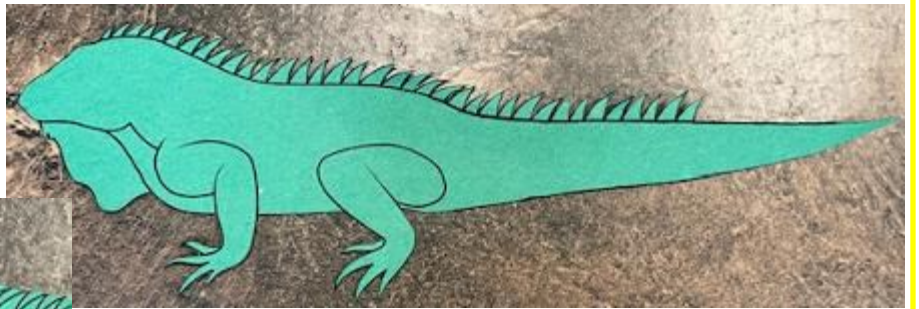

Materials: paper iguana template, branch template, 8mm wiggle eye, colored pencils, scissors, glue

Directions:

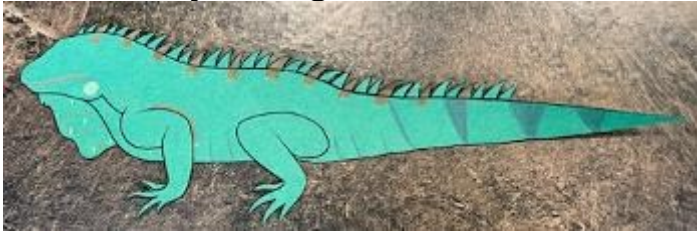

1. Start by carefully pulling the paper pieces apart. Cut out the brown branch.

2. Cut out your iguana. If you choose, you don't have to completely cut out the back spikes or feet.

3. Color your iguana.

4. Glue on the wiggle eye.

5. Glue the iguana onto the branch. Make sure to use only a little glue on the feet and belly/tail area. Hold in place to set.

6. You're done!
Let your iguana dry before hanging it up on a wall at home!
