

Make A Paint Stick American Flag

Paint Stick American Flag

Materials: 7 paint sticks, 4 jumbo popsicle sticks, 5 wooden stars (1"), red/white/blue paint, paint brushes, pencil, hot glue

Directions:

1. Lay out all 7 of your sticks and draw a line across 4 of them. This will be the blue square on your flag. (Can use one of the bottom sticks as a straight edge.)

2. Paint the sticks red, white, and blue as pictured. Do another paint coat if needed then set aside.

3. While the sticks dry, paint your stars white.

4. Once dry, use hot glue to attach popsicle sticks to back side of paint sticks. **Make sure your flag is in the correct order.**

5. Glue the stars to your flag.

Your paint stick American flag is complete! Make sure to display it this 4th of July!
