

Make an Articulated Anteater

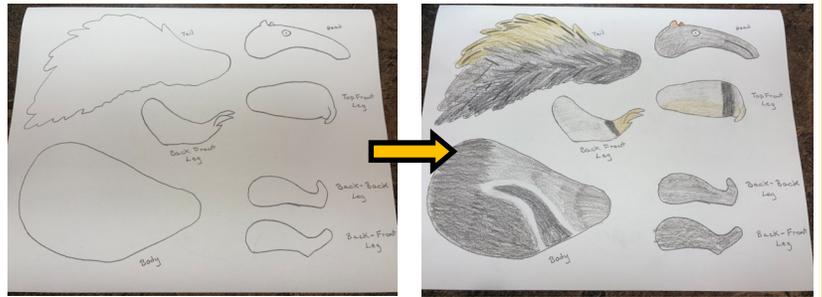

Articulated Anteater Directions

Materials: anteater template sheet, 4 brass brads, tacky glue, scissors, red pipe cleaner, tiny black circles, & colored pencils.

Directions:

1. Start by coloring your anteater template.

2. Cut out the anteater template pieces.

3. Use the brads to connect the head to the neck of the body. Carefully use the point on the brad to create a hole in the paper. Flip around and flatten the brad.

4. Repeat step 3 for rest of the body. Use image as a guide to place the brads.

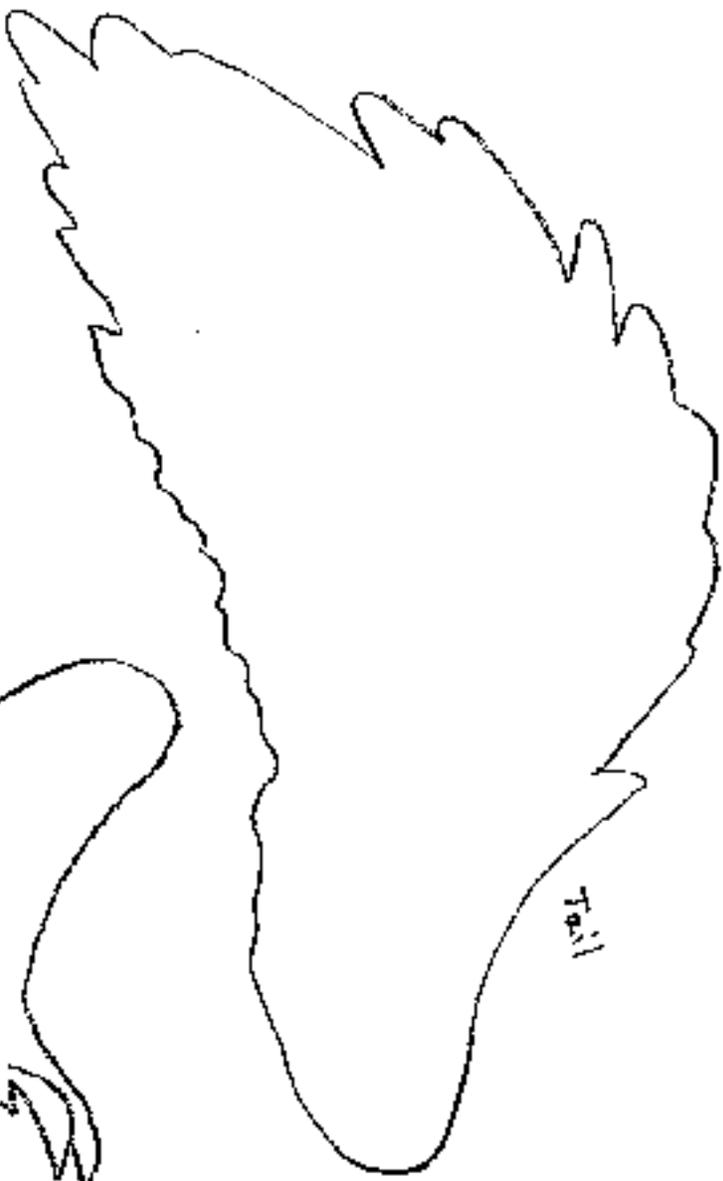

5. Glue the red pipe cleaner to the backside of anteaters mouth to make the tongue. Then glue black circles to the tongue to act as ants.

6. You have completed your anteater! Now try using your anteater as a puppet that walks around Woodhaven!
