

Make A TP Tube Bat

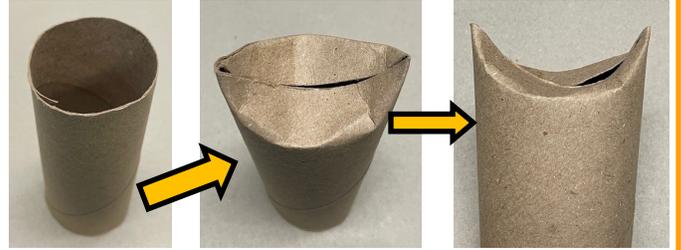

TP Tube Bat Directions

Materials: tp tube, 2-brown pipe cleaner pieces (5" length), 2-7mm wiggly eyes, brown construction paper wing template, black/white colored pencils, scissors, Elmer's glue

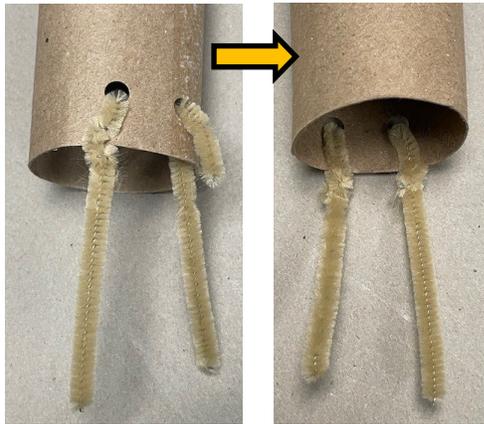

Directions:

1. Start by folding in the top edges of the tube to make the ears.

*****Use the side with NO holes.**

2. Attach the pipe cleaner pieces to the two holes at the bottom of the body for the legs.

3. Glue on wiggly eyes near the ears. Add a smile with the colored pencils.

4. Cutout the brown wing pattern. Glue to the backside of the tp roll body.

6. Take your bat home and hang it upside down!
